

2026-2027 PROMOTION AND TENURE

Advisory Recommendation

Faculty should be aware that candidates for promotion and/or tenure will have access to their full dossiers during the review process, including faculty recommendations. Candidates will be provided a minimum of five (5) business days to review the package and may attach up to two (2) additional pages of information following both the departmental and dean reviews.

It is requested that all departments use this form only.

Candidate Name:

The granting of tenure and promotion is a most important matter and should, therefore, be considered very seriously by those making recommendations, as tenured individuals tend to remain on the faculty for many years. Each recommendation should be followed by frank, objective comments in its defense. Pertinent criteria from the *Faculty Manual* and from approved department/school, college, and other unit tenure guidelines should be applied.

Recommendation:

Recommend tenure and promotion

Recommend denial
